SUMMARY HOUSING CHARACTERISTICS

This report presents a summary of housing characteristics from the 1961 Census for counties and census divisions, as well as for incorporated cities, towns and villages of 10,000 population and over. Data constituting the tables of this report were derived from a 20 p.c. sample of occupied dwellings across Canada.

More detailed information on dwellings and households will be issued at a later date as part of the regular volume series of final reports of the 1961 Census. The purpose of this advance report is to make available summary totals for the counties, census divisions, and larger urban centres at the earliest possible date. Because of sampling variation, figures under 100 are not shown.

Definitions on which data in this report are based are shown on Page 16. The following statement provides a comparison with the 1951 Census for items which were included in both the 1951 and 1961 Censuses.

CARACTÉRISTIQUES SOMMAIRES DE L'HABITATION

Le présent rapport donne un sommaire des caractéristiques de l'habitation obtenues au recensement de 1961, pour les comtés et divisions de recensement, ainsi que pour les cités, villes et villages constitués de 10,000 habitants et plus. Les chiffres des tableaux proviennent d'un échantillon de 20 p. 100 des logements occupés au Canada entier.

Des renseignements plus détaillés sur les logements et les ménages paraîtront plus tard dans les rapports définitifs de la série régulière des volumes du recensement de 1961. Le présent rapport anticipé a pour but de faire connaître le plus tôt possible les totaux sommaires des comtés, divisions de recensement et grands centres urbains. En raison des variations d'échantillonnage, on n'indique pas les chiffres inférieurs à 100.

Les définitions sur lesquelles se fondent les données du présent rapport sont indiquées à la page 16. Le tableau ci-après permet la comparaison des données recueillies aux deux recensements de 1951 et de 1961.

Définitions

Dwelling. - A dwelling is defined as a structurally separate set of living quarters, with a private entrance either from outside the building, or from a common hall, lobby, vestibule or stairway inside. The entrance must not be through anyone else's living quarters.

Types of dwellings. - The two main types shown in this report are as follows:

- (a) **Single detached.** - Dwellings in this category are commonly called "single houses". They contain only one dwelling unit and are completely separated on all sides from any other dwelling or structure.
- (b) **Apartments and flats.** - These include:
 - (i) dwelling units in apartment blocks or apartment hotels;
 - (ii) suites in duplexes or triplexes, i.e., where the division between dwelling units is horizontal;
 - (iii) suites in structurally converted houses;
 - (iv) living quarters located above, or in the rear of stores, restaurants, garages, or other business premises;
 - (v) janitors' quarters in schools, churches, warehouses, etc.; and
 - (vi) private quarters for families of staff members in hospitals or other types of institutions.

Other types not shown separately in this report are single attached and mobile.

In need of major repair. - Includes any dwelling in a seriously run-down or neglected condition with at least one of the following major structural deficiencies:

- (a) sagging or crumbling foundation;
- (b) faulty roof or chimney;
- (c) rotting doorsills or window frames;
- (d) interior badly in need of repair.

Rooms. - In determining the number of rooms in a dwelling, only those rooms used or suitable for living purposes, including rooms occupied by servants, lodgers, or members of lodging families, are counted. Summer kitchens, sun-rooms, recreation rooms, attic rooms, etc., are counted as rooms only if they are finished off and suitable for year-round living quarters. Not counted as rooms are: bathrooms, clothes closets, pantries, halls, or rooms used solely for business purposes.

"Crowded" dwelling. - For census purposes, any dwelling in which the number of persons exceeds the number of rooms occupied is classified as crowded.

Bath and toilet facilities. - Includes "exclusive" and "shared" use.

Mechanical refrigerator. - Includes electric and gas refrigerators.

Value. - Based on amount expected if the dwelling were sold to a willing buyer. Figures for values and mortgages relate to owner-occupied, non-farm, single detached dwellings only.

Rent. - Based on cash (or contract) rent paid or payable for the month of May, 1961. Figures relate to non-farm dwellings only regardless of type.

Logement. - Le logement se définit: une série de locaux d'habitation qui sont distincts quant à la structure et ont une entrée privée donnant sur l'extérieur ou sur un endroit commun à l'intérieur: corridor, couloir, vestibule ou escalier. L'entrée ne doit pas obliger les occupants à passer par les locaux habités par d'autres personnes.

Genres de logements. - Les deux principaux genres indiqués dans le présent rapport sont les suivants:

- a) **Simple détaché.** - Les logements de cette catégorie sont communément appelés "maisons simples". Ils ne contiennent qu'un logement complètement isolé, de tous côtés, de tout autre logement ou construction.
- b) **Appartements et plain-pied.** - Ils comprennent:
 - i) les unités de logements des maisons d'appartements et des hôtels d'appartements;
 - ii) les ensembles de pièces dans les duplex et les triplex, i.e., où la division entre les logements est horizontale;
 - iii) les ensembles de pièces dans des maisons dont la structure a été transformée;
 - iv) les locaux d'habitation situés au-dessus ou à l'arrière de magasins, restaurants, garages ou autres locaux d'affaires;
 - v) les logis des concierges dans les écoles, les églises, les entrepôts, etc.; et
 - vi) les pièces réservées aux familles des membres du personnel des hôpitaux et autres institutions du genre.

Les autres genres non indiqués séparément dans le présent rapport sont les logements simples attachés et les logements mobiles.

Besoin de réparations importantes. - Comprend tout logement dont l'état est fortement décrépit ou négligé et présente au moins une des déficiences suivantes:

- a) fondations pourries ou affaissées;
- b) cheminée ou toit défectueux;
- c) seuils ou châssis pourris;
- d) intérieur ayant grandement besoin de réparations.

Pièces. - Pour déterminer le nombre de pièces par logement, seules sont comptées les pièces qui servent ou peuvent servir à l'habitation, y compris les pièces occupées par les serveurs, les chambreurs ou les membres des familles chambreuses. Les cuisines d'été, les solariums, les pièces de récréation, du grenier, etc., ne comptent comme pièces que si elles sont finies et peuvent servir à l'habitation toute l'année. Ne sont pas comptées les salles de bain, les garde-robes, les dépenses, les couloirs, ou les pièces servant uniquement aux affaires.

Logement "surpeuplé". - Aux fins du recensement, tout logement où le nombre de personnes dépasse le nombre de pièces occupées est classé comme surpeuplé.

Baignoire et toilette. - Comprend l'usage "exclusif" et l'usage "partagé".

Réfrigérateur mécanique. - Comprend les réfrigérateurs électriques et au gaz.

Valeur immobilière. - Fondée sur le montant exigé si le logement était vendu à un acheteur qui le veut. Les chiffres de la valeur et des hypothèques ne visent que les logements non agricoles, simples détachés, occupés par leurs propriétaires.

Loyer. - Fondé sur le loyer comptant (ou contractuel) payé ou payable pour le mois de mai 1961. Les chiffres ne visent que les logements non agricoles indépendamment du genre.
